

## Instructions - import CSV Data into Excel

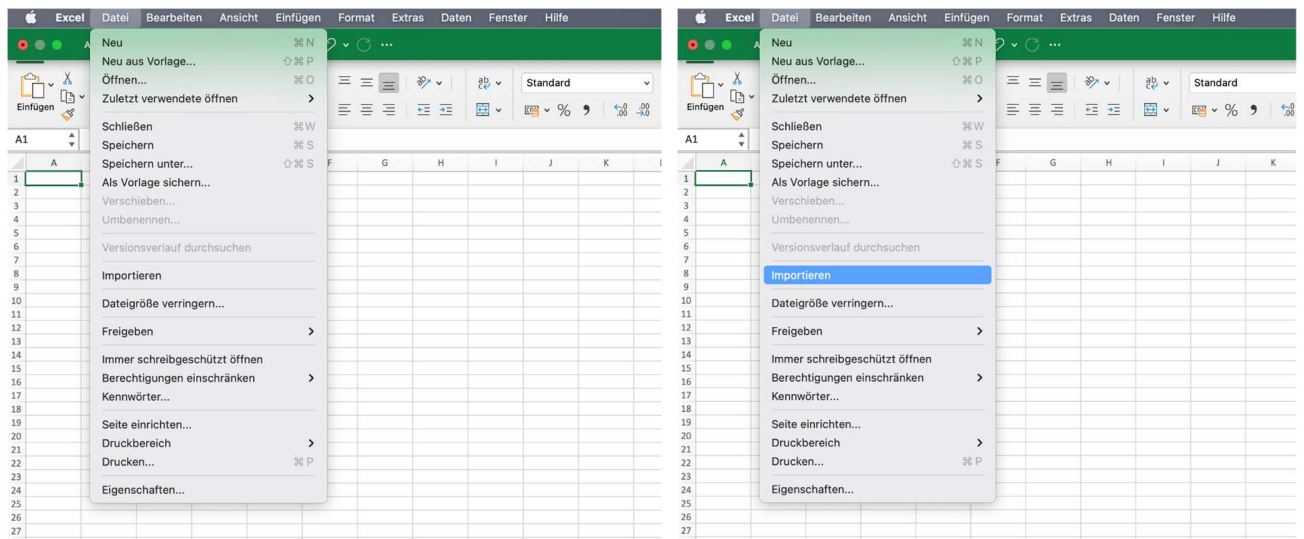

### Step 1:

Download the CSV Data from the Boomerang website.

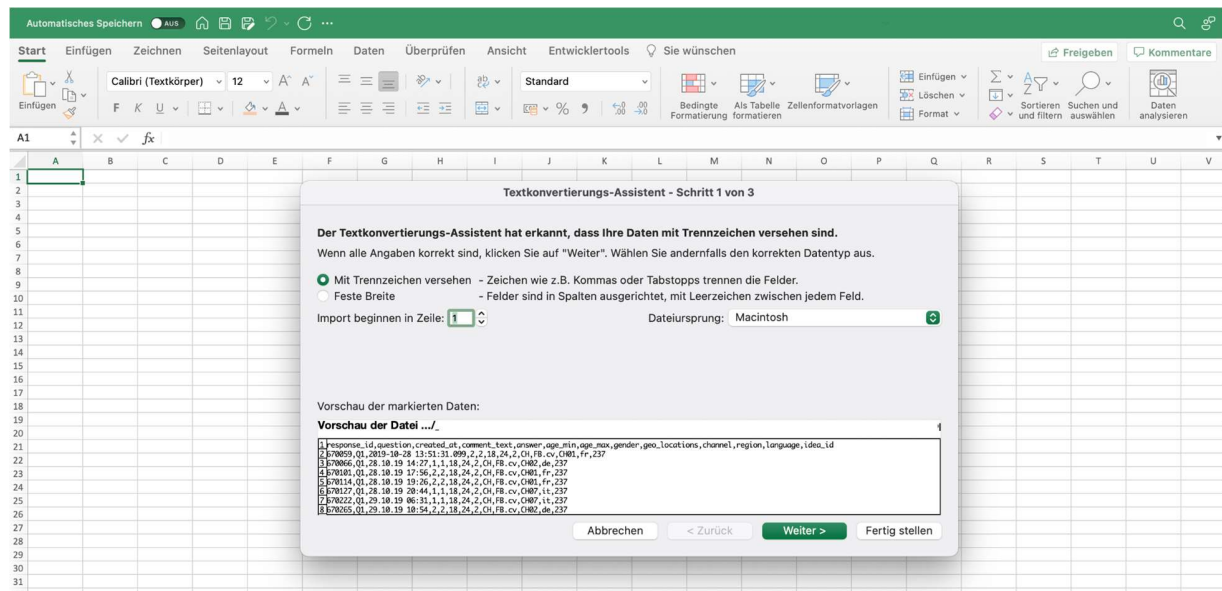

### Step 2:

Open a new Excel Spreadsheet and click on “file” on the upper screen. Then click on “import”.

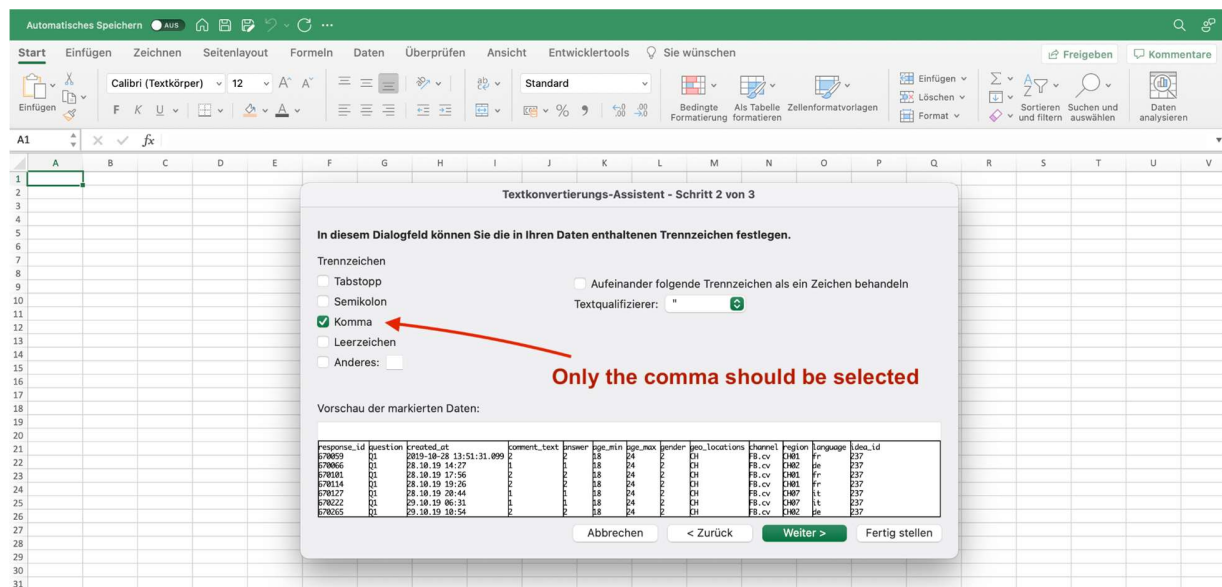

### Step 3:

This window with the following basic settings should pop up. Click on “weiter”.

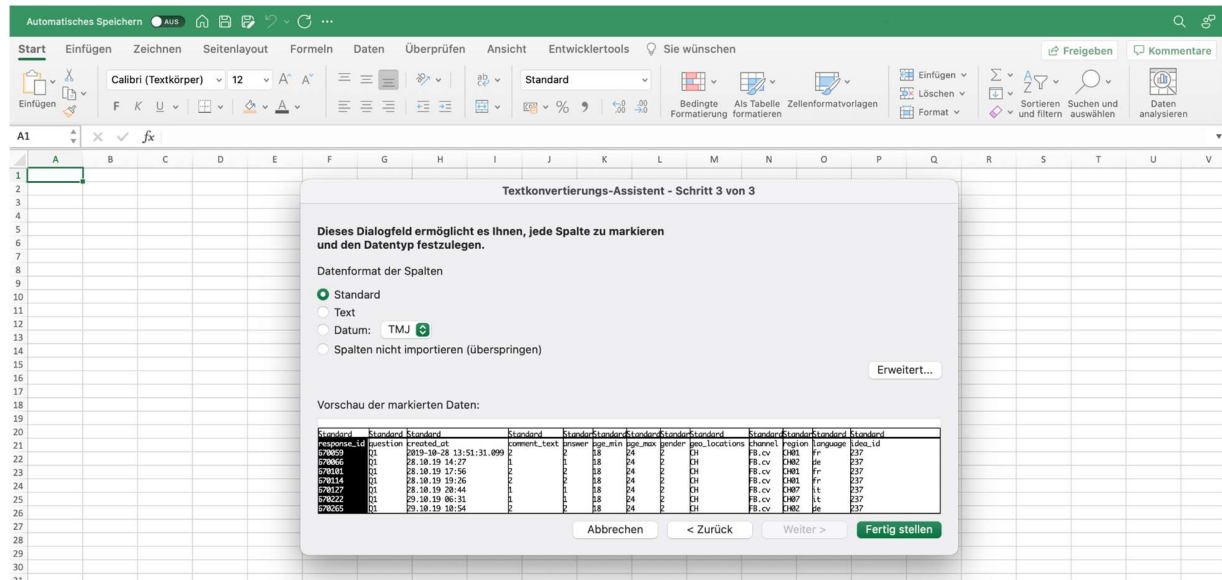

### Step 4:

This window should pop up. Only select the option comma and click on “weiter”.

### Step 5:

This window with the following basic settings should pop up. Click on “weiter”.

## Step 6:

After confirming your selected settings, the data should be displayed as shown below.

| response_id | question | created_at              | comment_text | answer | age_min | age_max | gender | geo_locations | channel | region | language | idea_id |
|-------------|----------|-------------------------|--------------|--------|---------|---------|--------|---------------|---------|--------|----------|---------|
